Worcester 12th mo 19th '50

dear A. W. Weston,

We send you such matters and things, for your Fair, as we have been able to make and collect since the fair in Worcester came off. We only wish we could have done a great deal more than we have done — We hear that you have a very fine display of foreign articles this year; and we wish you the best success in selling them —

If any of the clothes which we have manufactured should be on hand at the close of the fair, will you be so kind as to return them to us, as there is a demand here for some of them, if they do not sell in Boston —

With great regard

S. H. Earle, on behalf of many Worcester women —

Please give my love to thy sisters —

S. H. E —
